KAPITEL 1

Introduction

This \LaTeX template is designed for the creation of thesis documents (bachelor, master, phd) and targets both beginner and experienced users of \LaTeX . It supports all basic functionality and requirements of a technical document such as the inclusion of graphics, math, tables, references, bibliography and much more. In contrast to a standard LaTeX document this template not only loads all state of the art packages (`preamble/packages.tex`) to provide the best functions for each task, but also includes a separate document for the style/layout of the document (`preamble/style.tex`). It therefore tries to separate functionality and layout as much as possible. And the best, everything is documented in the code and furthermore in a separate documentation file (`TemplateDocumentation.pdf`)

This document shows in ?? a general tutorial for \LaTeX with links to the documentation for further tasks. You can view the underlying code in file `content/demo/latextutorial.tex` or in this document in ??.

The code of the template itself is documented in `TemplateDocumentation.pdf`.

Acknowledgments

I thank ?? and ?? for giving me the opportunity to write this bachelor/master/phd thesis at ??, and for their professional advise.

I thank in particular the ?? team who readily/willingly provided information at any time and ??.

I would also like to than all people who supported me in writing this thesis.

Erklärung der Selbstständigkeit

Hiermit versichere ich, die vorliegende Arbeit selbstständig verfasst und keine anderen als die angegebenen Quellen und Hilfsmittel benutzt sowie die Zitate deutlich kenntlich gemacht zu haben.
